Happy Mother's Day!

In the radiant spirit of Mother's Day, let us not only honor the remarkable women who grace our lives but also rejuvenate our hearts and minds! As we pay tribute to the boundless love and sacrifices of mothers, let us illuminate the myriad blessings they bestow and the joy derived from serving our community.

Mother's Day beckons us to reflect upon the nurturing facets of our existence, seeking forgiveness where it may be needed and fortifying our faith. Just as we treasure the cherished moments spent with our mothers, let us also release any emotional burdens—bidding farewell to grudges and negativity!

Let us embrace this day with hearts brimming with gratitude and purpose, celebrating not only the extraordinary mothers among us but also the shared journey of faith. Together, we can cultivate a vibrant space that radiates love, hope, and joy—echoing the essence of a mother's love—allowing us to flourish as individuals and as a united community!

Reducing RMD's with QCD's

(Qualified Charitable Donation)

For retirees who've accumulated significant savings in their tax-deferred accounts, the onset of required minimum distributions (RMDs) at age 73 can have serious tax consequences. That's because the higher the balance in your tax-deferred accounts, the higher your RMDs—and potentially your tax bracket.
